

11 Series

Electronic Strobe with sounder

IPIXA Strobe with sounder is used to generate local audible and visual warnings. The outstanding sound level makes sure that everyone nearby is immediately made aware of a potential incursion. The strobe light also turns on, allowing for faster identification of the property and quicker security team intervention. The Strobe light features advanced optics and an innovative lens design. IPIXA's innovative design produces ultra-bright LED output and a high intensity piezoelectric siren while using very less power.

AFS2005

Product Specifications

Siren Type	: Piezoelectric
Strobe Type	: Ultra bright LED
Sounder Output	: 85 - 100 dB
Flash Rate	: 60 / minute
Tamper	: Cover and Wall
Operating Voltage	: 6-14 VDC
Operating Current	: Standby – 0 mA Maximum – 150 mA @ 12 VDC
Dimensions	: 100 x 130 x 50 mm
Material	: ABS Housing Acrylic Lens
Weight	: 200 g

IP34

Special Features:

Aesthetically pleasing small design suitable for both indoor and outdoor installation.

No need for separate power supply - can be powered from the hosting control panel.
