

11 Series

Electrified & Fire Series Door Cords

IPIXA Security 11 Series Electrified & Fire Series is developed to support security applications for doors used in fire escape routes & those requiring electrified door locks & associated accessories. Door cords are designed to protect wiring between the wall / frame and the door leaf thereby shielding the cabling.

11 Series is developed keeping the designers choice in mind compared to standard access control locking hardware.

EFS1116

Product Specifications

Door Cord Type	: Mortise Fixing (Concealed)
Material	: Zinc Alloy
Size	: 290 mm x 25mm x 10 mm (Inner Diameter)
Max Cable Thickness	: Supports Control Cable upto 8 cores
